PROFESSIONAL SUMMARY

Motivated Information Technology student with hands-on experience in technical troubleshooting, web development, and hardware configuration. Strong leadership background supervising multiple crews. Eager to apply problem-solving skills and technical knowledge in an entry-level IT support role.

TECHNICAL SKILLS

- Operating Systems: Windows 10/11 and Windows Server
- Networking: TCP/IP and Switching/Routing
- Cloud/Virtualization: Hyper-V
- Security/Forensics: CompTIA Security+
- Scripting/Programming: HTML, CSS, JavaScript
- Tools: Microsoft Administrator and Active Directory

EDUCATION

Kent State University | Kent, OH | Expected graduation: Fall 2026

Bachelor of Science in Information Technology Concentration in Internet/Multimedia

Experience

Supervisor – Brady's Landscaping (Canton, Ohio) August 2023 – Present

- Utilized digital work management tools and mobile technology to coordinate daily operations across multiple fields crews.
- Oversaw 2-3 crews by prioritizing workloads, resolving field issues, and ensuring project completion and quality.
- Trained team members and operated heavy equipment such as mini skid steers and skid steers.

TECHNICAL PROJECTS

Custom Gaming PC Build — Personal — August 2024

- Built a gaming computer from the ground up designed to run mainly on 1440p on most if not all games. Able to run 4k on most games at a mid to low fps.
- Researched and selected compatible hardware components such as CPU, GPU, motherboards, RAM, power supply, AIO cooling, and storage devices that will meet the specifications.
- Installed Windows, motherboard chipset drivers, graphic drivers, and ran BIOS updates.
- Diagnosed and resolved hardware and software issues, including driver conflicts and boot failures to optimize system performance.

Clean Path (Minesweeper-Inspired Web Game) – Course – June 2026

- Developed a browser-based puzzle game featuring game logic and interactive gameplay.
- Implemented JavaScript game mechanics including lives, score, and user interaction.
- Designed a responsive interface and integrated custom branding for a nonprofit-inspiring concept.
